AirWave Turbo Axial Fan F1200

This turbo fan provides up to 2000 CFM with 1 HP, 7.1 amp motor. The AirWave Axial Turbo fan is used to exhaust moisture-laden air and to introduce drier outdoor air with great force. Perfect for air circulations/ventilation, carpet and floor drying and spot cooling.

Features

High-density polyethylene housing - resists impacts, strong and durable for professional use.

Can be used as ventilators, circulators and simply as fans.

Large built-in cord wrap - quick, easy and safe storage of power cord.

12" fan blades generate greater air flow for increased efficiency.

Can be easily stacked/interlocked during use, transportation and storage.

Capability to connect up to 125 feet (38 m) of straight 12" duck.

Single speed

Technical Specifications

Model	Air Wave Axial Turbo F1200
Motor	1.0 HP
Amps	7.1
CFM	2000
Construction	High-density polyethylene
Cord	25 ft., 16 gauge, ULapproved
Shipping Weight	34 lbs.
Dimensions	21" x 16" x 20"
Product Code	B001110
