

PULLMAN-HOLT

UV10 Upright Vacuum

Pullman-Holt's new dual motor upright vacuum model UV10 is a vast improvement over its predecessor model UV5. Power and pick-up has been significantly increased without increasing the noise level. In fact, it's been reduced! The biggest improvement can be found in its versatility. In addition to cleaning any type of carpet and hard floor area more effectively, the UV10 is equipped with an onboard hose, extension wand and two dusting tools for above floor cleaning. To allow you to clean a wider area without stopping to change outlets, we have increased the length of the power cord to 50-feet. Several popular features from the model UV5 have been carried over to the UV10, including the floating brush head and high efficiency top-fill filtration system. Finally, the UV10 has been design to accept the same disposable paper filter bags used by our previous dual motor upright vacuums, models UV3 and UV5.

Technical Specifications:

Motor Vac:	1200 watts
Motor Brush:	60 watts
Amps;	12
Noise level:	69DB
Filter paper bag;	4 liter
Filter exhaust:	HEPA
Power cord:	50-foot 3-wire
